FREEDOM OF INFORMATION ACT 2000 – INFORMATION REQUEST FOI2020/0186

Thank you for your request for information.

Wye Valley NHS Trust responds:

////////////////////REQUEST

Prostate MRI referrals fall into the 2 week wait (2ww) category. The Trust have been scanning all 2ww referrals during Covid and the reports have been completed by the Consultant Radiologists in the normal turnaround time.

So theoretically there should have been no impact on prostate cancer diagnosis as long as the Trust had the request and the patient was content to visit for their scan.

This measure should have improved the time to diagnosis as the administrative staff have found it easier to book earlier than 2 weeks, due to the vast reduction in referrals during lockdown and recovery.

However the level of all referrals appear to have returned to pre-pandemic levels.
